Usage tracking

Some of our apps include a minimum of usage tracking that allows us to analyse the games and how they're played and improve them for a better user experience. This data is never shared with any third party and the data is handled and transmitted in a secure way. The data is anonymous and can't be used to identify a specific user or device.

Personally Identifiable Information

In our apps that allow the user to purchase the full version through an in-app purchase we use the unique device ID (Android ID) to secure the purchase data. The ID is not shared or transmitted out of the device but only used locally for this sole purpose.

General Data Protection Regulation

We follow the GDPR in all our work and don't collect any personal data if it's not specifically asked for.

Childrens Online Privacy Protection Act Compliance

We are in compliance with the requirements of COPPA (Childrens Online Privacy Protection Act)

Data retention

User data is retained as long as it is necessary to provide the service. Data is deleted from our records when it is no longer needed within a reasonable timeframe.

Data security

Insektslandet uses generally accepted security measures and safeguards in an attempt to keep the data it collects secure and requires that the third parties it works with agree to do the same. The measures and safeguards include limiting access to the data to those persons who need it to complete their work for Gro Play, using a firewall protected environment, and storing personal information encrypted and in secure operating environments.
